

**Tested and
Certified to
EN12566-3**
EUROPEAN STANDARDS

**One of Europe's
most advanced
wastewater
treatment
solutions**

IWOX® Sewage Treatment Systems have been tested and certified to European Standard EN 12566-3 Performance Tests, receiving market-leading pollution removal results, and exceed current requirements.

The range is comprised of three advanced system options that set new standards in wastewater treatment: IWOX® Standard, IWOX® Premium, IWOX® Clear.

Reliable & compact unit
Low running costs
Easy to install
Extremely low maintenance

Supplied in the north of England by:

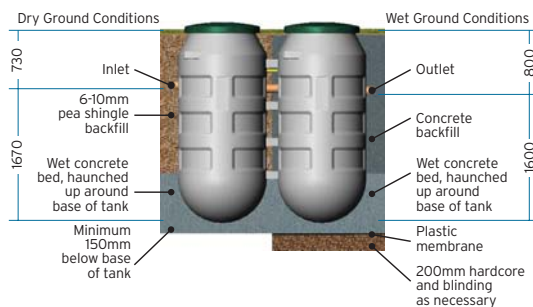

IWOX[®]

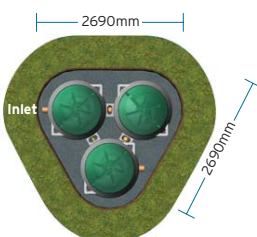

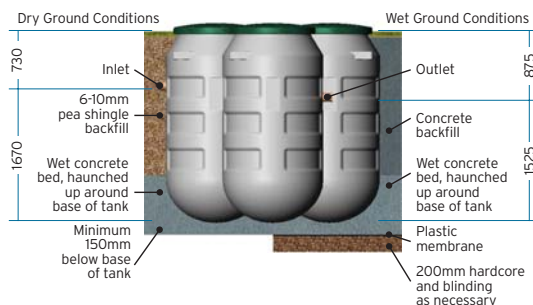

The IWOX[®] range is comprised of three system options that all meet the current requirements of the Environment Agency, with IWOX[®] Clear exceeding the requirements. All systems benefit from the following features:

- Very small footprint with no need for a reed bed or tertiary treatment
- Made from strong, robust Tank Grade MDPE - unlike GRP alternatives which are prone to cracking if not handled carefully
- Strong and secure access covers
- Easy installable due to light weight material
- Modular up to 50 PE, while maintaining effluent quality
- Quiet in operation
- Low maintenance; only one mechanical part (air pump, 80W)
- BOD removal on each system can be further enhanced with our range of filters

Site Installation of IWOX[®] Premium & Standard

Site Installation of IWOX[®] Clear

IWOX[®] Standard

IWOX[®] Standard is a two tank system and is the entry level of the IWOX[®] range. It is tested and certified with an **average removal efficiency of 20/30 SS/BOD without the need for any filters or tertiary treatment.** It is manufactured from Tank Grade MDPE and comes complete with a one year warranty.*

IWOX[®] Premium

IWOX[®] Premium is a two tank system that has been tested and certified with an **average removal efficiency of 10/9 SS/BOD without the need for any filters or tertiary treatment.** IWOX[®] Premium benefits from surge flow protection which improves BOD removal efficiency. It is manufactured from Tank Grade MDPE and features an external air compressor failure alarm which can be fitted anywhere on the premises. IWOX[®] Premium is backed by a 2 year warranty.*

IWOX[®] Clear

IWOX[®] Clear, one of Europe's most advanced treatment systems, is tested and certified to **exceed current requirements of the Environment Agency with an average removal efficiency of 3/2 SS/BOD without the need for any filters or tertiary treatment.** It benefits from no floating sludge due to denitrification and Nitrogen removal following the European Water Framework Directive. IWOX[®] Clear is backed by a two year warranty.*
